Title : Online Book retail management system

Company	:	
Technology/Tools used	:	XAAMP, Visual studio code, and the languages PHP, HTML5, CSS, MySQL
Duration	:	05/12/2021 - 31/01/2022
Roles and Responsibility	:	Front end developer
Description	:	Designing an online book retail management service system to provide an easy way to sell products to a large customer base and to purchase more books. Its difficult to buy new books and also difficult to sell the old books. Once the books are used they often go for recycling even the Xerox notes once after use can be used by some other who are in need of them. This can be achieved by our web application. Here the user can sell the books and also purchase the books by reasonable cost.
